

The BARBRI App is the most flexible way to prepare for the bar or law school exams. Watch lectures and review outlines with more convenience than ever. Work practice questions at home, between classes or at the coffee shop. The BARBRI App is available for FREE from the App Store for use on iPhone®, iPod touch®, or iPad™. To get started using the BARBRI App, follow the instructions below.

### To Join a Wi-Fi Network

The Wi-Fi settings let you turn on Wi-Fi and join Wi-Fi networks.

- Choose Settings > Wi-Fi
- Turn Wi-Fi on (wait a moment as your iPhone/iPod touch/iPad detects networks in range)
- Select a network (fees may apply to join some Wi-Fi networks)
- If necessary, enter a password and tap Join (networks that require a password appear with a lock icon).

Once you've joined a Wi-Fi network manually, your device will automatically connect to it whenever the network is in range. If more than one previously used network is in range, your device will join the one last used.

When your device is connected to a Wi-Fi network, the Wi-Fi icon in the status bar at the top of the screen will show the connection strength. The more bars you see, the stronger the connection.

For information about configuring Wi-Fi settings, see the Apple iPhone/iPod touch User Manual at <http://www.apple.com/support/>.

### To Access Course Materials

Use the Home screen to access your BARBRI course materials, monitor your progress, and manage this application. Tap the Home button in the bottom navigation menu to return to the Home screen.

The course materials available to you depend on your level in school (1L, 2L, 3L) and the status of your BARBRI account. The BARBRI App provides lectures, mini-review outlines, and test questions for use during law school. It also provides similar content for the MPRE course. If you are in the bar review course and have upgraded to BARBRI Mobile, you can access the entire bar review course through the BARBRI App.

**Lectures:** To download the Mobile Bar Review lectures:

- Open the BARBRI App.
- Tap "BARBRI Course Sign In."
- If prompted, enter your Username and Password (the same information used at barbri.com).
- You will see a list of available content. Tap the "Mobile Bar Content" option for your state.
- Tap "Start Studying."
- Tap "Lectures." A list of all the available bar review lectures loads alphabetically.

- Select the first lecture that you wish to view. The available segments for that lecture will be displayed. If a handout is available for a lecture, an icon will indicate that it can be downloaded from the Enrolled Student Center on [www.barbri.com](http://www.barbri.com). Each lecture may also provide syllabus information, which can be accessed by clicking on the icon next to each hour.

- Tap “Download.” You will be given the option to download either Audio or Video format. If you are using an iPod touch or an iPad without 3G coverage, you must be connected to Wi-Fi to download lectures. If you are using an iPhone or iPad with 3G coverage, you may download Audio lectures on EDGE or 3G networks, but should only download Video lectures through Wi-Fi. Once the lecture has been downloaded, you may disconnect from Wi-Fi for up to two (2) weeks without reconnecting. If you close the BARBRI App while downloading a lecture, your download will stop and will need to be restarted.
- When the download begins, a percentage status appears next to the hour of the lecture in which you are downloading.
- When the download is complete, the “Download” button becomes “Play Audio/Video.” Tap the “Play” button to begin that segment.

**Test Questions:** Choose between three test modes:

- 1) Study a single subject and answer practice questions without any time constraints, and get immediate feedback with a full answer discussion containing links to the topic in the mini-review outline,
- 2) Select a Paced Program assignment within a subject and get immediate feedback with a full answer discussion for each question, or
- 3) Take a practice exam covering all subjects for 30 minutes.

Upload your test scores regularly when you have an Internet connection. Test scores are used to determine your rank compared to other BARBRI students. Note that rankings are updated nightly.

**Offline Use:** You can use the BARBRI Courses portion of the app offline. After downloading the app, you must first log into BARBRI Courses with a Wi-Fi connection and download the initial content and lectures you wish to study. After that is complete, you can use the downloaded content offline for up to two weeks before you are required to reconnect.

## To Monitor Progress

The Home screen is also a personal dashboard to monitor your overall progress and access detailed information about your performance, including:

- Lecture hours you have viewed versus hours available to view
- Test results sorted by subject
- Subjects sorted by proficiency
- Subjects sorted by average time per question
- Rank compared to other students after overnight updates

If updates are available for your lectures, you will be prompted to download those updates from the Home screen. Tap the update message to download any changes.

## To Manage the BARBRI App

To change to a different set of course content, tap “Change Study Content” on the Home screen. The course content options to which you have access are displayed on the content list.

To compare your rank with other students, tap “Upload Test Results” on the Home screen when you have an Internet connection.

To ensure adequate space on your device for new lectures, find old lectures already played and tap the “Delete Media” button to delete a specific lecture.
